Gas Tractor	Flour City	20-35	<p>Purchased in 1960, this is the first tractor Jerred paid for with his own money. He was still in high school at the time. A tree had to be cut down to free the tractor from the pasture it sat in for 40 years. The engine was badly stuck with one of the pistons completely broken. It took two years to get the engine free, then all new pistons had to be found. As he discovered later in life, this is a very rare tractor knowing of only 2 or 3 others of this size to be in existence today.</p> <p>It was re-restored by JK Restorations of Hobart, IN in 2012</p> <p>Contributed by Jerred Ruble</p>	Heritage Park Forest City, IA	1924		\$ 240,000

Gas Tractor	Avery	45-65	<p>One of the largest of the Prairie Tractors was the 45-65 Avery. These large gas tractors were called Prairie tractors because they were used in the vast prairies of the west states and in Canada to work the ground. These type of tractors were used for road building and general belt work as well. The tractor weighs 22 thousand pounds.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1922	18978	\$ 150,000

Gas Tractor	Townsend	10-20	<p>Looking like a steam engine, the Townsend tractor was manufactured in Janesville, Wisconsin by Roy Townsend. The boiler serves as the radiator, cooled by the exhaust of the engine. On Roy's 100th birthday, Wesley Rankin, the former owner of this tractor, loaded it up on a trailer and brought it to the nursing home where Roy was a resident. As far as known, this was the last time Roy heard one of his now famous tractors run and last picture of Roy and one of his tractors together.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1920		\$ 50,000	
Steam Engine	Minneapolis	14 HP (Return Flue)	<p>Earliest complete Minneapolis known to exist.</p> <p>Contributed by Jerred Ruble Estate</p>	Jerred Ruble Property Hanlontown, IA	1893	721	\$ 40,000

Steam Engine	Minneapolis	26 HP (Double)	<p>Only 6 or so twin cylinder Minneapolis engines are known to exist, this is the only 26HP known to exist.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1907	5667	\$ 35,000	
Steam Engine	Wood Bros.	22 HP	<p>Jerred's need for a Wood Brothers steam engine took him to Lexington, Kentucky in February of 1998. Wood Brothers is the only steam traction engine that was manufactured in Iowa. Now the engine feels at home again, where it was built in 1919.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1917	407	\$ 35,000

Gas Tractor	Case	25 Power Unit	<p>A very rare Case power unit. Only 3-4 are known to still exist. This is the exact engine used in the famous 12-25 Case tractors.</p> <p style="text-align: center;">Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	~1918		\$ 30,000	
Steam Engine	Case	50 HP	<p>Jerred's Grandfather on his father's side of the family bought this engine together with Jerred's 36" Case threshing machine new in 1915. The engine was used to thresh oats and saw lumber until about 1940. Jerred's father first restored the engine in 1960. Jerred's late brother restored the engine again in 1993. Jerred purchased the engine in 1995 from his brother's estate.</p> <p style="text-align: center;">Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1915	32910	\$ 30,000

Gas Tractor	Advance Rumely Oil Pull	16-30 H	<p>Henry Bennett of Moscow, Minnesota owned this tractor. Cooled with oil, the engine exhaust cooling the oil, Oil Pull tractors were always fascinating machines to Jerred. When Jerred was in the Air Force, Henry died and the tractor came up at Henry's estate sale. Jerred asked his Dad to bid on the tractor for him. Unfortunately bidding exceeded what Jerred told his Dad his limit was. Fortunately his Dad kept bidding.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1923	8805	\$ 25,000

Steam Engine	Minneapolis	22 HP (Return Flue)	<p>Jerred's Dad purchased this engine from the original owner, Antone Reistrum of Storm Lake Iowa in 1956. Jerred started running this engine at age 10 when it was used to power the T. M. Ruble lumber mill in Moscow, Minnesota. This is called a return flue engine as the heat from the fire is returned to the rear of the boiler. Notice the smoke stack on the rear of the engine. This is the very last return flue steam engine Minneapolis built.</p> <p>Contributed by Jerred Ruble Estate</p>	Heritage Park Forest City, IA	1913	6991	\$ 20,000
